Merit Pages : Hector De Perio (meritpages.com)

Hello, I'm HECTOR DE PERIO

I currently work for Amazon for the fifth year, and UPS for the second year. I am seeking career opportunities that will further improve my growth in the field of computer science with emphasis in artificial intelligence, software development engineering, or logistics

Summary of Qualifications

Growth Mindset: With a cumulative 3.9 GPA, I am confident and willing to learn responsibilities within a reasonable time frame. Currently learning [Japanese as a foreigner on Duolingo](#)

Technologically Adept: Visit my [Github](#) page for a view of my recent software projects

Startup Ready: Experience in a small office environment with 400%+ increase in revenue in less than a year, and with less than 10 employees

Flexible Quick Learner: Able to learn all assigned tasks in Amazon facilities and switch to multiple roles (software development, logistics, and operations)

Experience

UPS – Bay Area, CA Package Logistics:

-Daily 20,000 to 40,000 daily packages sent around Bay Area in 2023. About 60,000 daily sent during peak holiday season in 2023

Amazon - Bay Area, CA Reverse Logistics / Prime Pantry / Sortation Logistics:

-Software development trained (front end web development with emphasis on ReactJS)
-About 25,000 processed goods daily, fulfilling customer orders and package distribution to Amazon's Bay Area customers

Walmart U.S. - Bay Area, CA Retail Logistics / Supply Chain:

-Replenish inventory to Walmart Department Stores

Number One Tutors - Bay Area, CA Supplementary Educational Services Tutor:

-After School Education for K-12 students in areas of Math, English, and Science

U.S. Perishables – Bay Area, CA Logistics Coordinator:

-Tremendous revenue growth of roughly 400% from employment start until voluntary leave
-Distributed very time-sensitive chilled and perishable products in intercontinental areas of USA

Education

Current GPA: 3.9

Computer Science / Southern New Hampshire University

Computer Science: Front End Web Development Boot Camp / University of California

Computer Science: Data Science / Mathematics / eDX
Computer Science / University of California IGETC Transfer

Software Stack

Angular, C++, CSS, HTML, JavaScript, Markdown, NodeJS, Python, ReactJS

Activities/Interests

Computer Science, Competitive E-Sports, Fitness, Health, Logistics, Retail, Technology
