Merit Pages : Hector De Perio (meritpages.com)

Hello, I'm HECTOR DE PERIO

I currently work for Amazon for the fifth year, and UPS for the second year in a row. I am seeking career opportunities that will further improve my growth in the field of computer science with emphasis in artificial intelligence, software development engineering, or logistics

---

Summary of Qualifications

Growth Mindset: With a cumulative 3.9 GPA, I am confident and willing to learn responsibilities within a reasonable time frame

Technologically Adept: Visit my Github page for a view of my recent software projects

Startup Ready: Experience in a small office environment with 400%+ increase in revenue in less than a year, and with less than 10 employees

Flexible Quick Learner: Able to learn all assigned tasks in Amazon facilities and switch to multiple roles (software development, logistics, and operations)

Experience

UPS – Bay Area, CA Package Logistics: Package distribution and sortation to intercontinental areas of USA and international locations

Amazon - Bay Area, CA Reverse Logistics / Prime Pantry / Sortation Logistics: Fulfillment of customer orders and package distribution to Amazon's Bay Area customers

Walmart U.S. - Bay Area, CA Retail Logistics / Supply Chain: Replenish inventory to Walmart Department Stores

Number One Tutors - Bay Area, CA Supplementary Educational Services Tutor: After School Education for K-12 students in areas of Math, English, and Science

U.S. Perishables – Bay Area, CA Logistics Coordinator: Distribute very time-sensitive chilled and perishable products in intercontinental areas of USA

Education   <u>**Current GPA: 3.9**</u>

Computer Science / Southern New Hampshire University

Computer Science / Front End Web Development Boot Camp/ Amazon

Computer Science / Data Science / Mathematics / eDX

Computer Science / University of California IGETC Transfer
